

# Cavendish Close Infant and Nursery School

## Information security policy

### Introduction

Information security is everyone's responsibility. Personal and sensitive data is used, stored, shared, edited and deleted each day.

This policy explains staff responsibilities that are already in contracts of employment and reflects statutory obligations.

Details of how personal data is used is contained within privacy notices. The data protection policy sets out how the school's statutory obligations are managed.

The policy applies to all school staff which includes governors, agency staff, contractors, work experience students and volunteers when handling personal data.

### Information security breach

Information security breaches can happen in a number of different ways.

Examples include:

- sending a confidential email to the wrong recipient
- letters sent to the wrong address with health and SEN data included
- overheard conversations about a member of staff's health
- an unencrypted laptop stolen after being left in a car
- hacking of school systems
- leaving confidential documents containing personal data in a car that was stolen

These would all need to be reported to the school data compliance officer. Anything which a staff member becomes aware of even if they are not directly involved in needs to be reported. For example, if they know that document storage rooms are sometimes left unlocked at weekends.

The sooner the breach is notified to the right person, the sooner and more effectively it can be managed.

In certain situations, it is necessary to report a breach to the Information Commissioner's Office (ICO), the data protection regulator, and notify those whose information has been compromised within strict timescales. This is another reason why it is vital breaches are reported immediately.

### Privacy on a day-to-day basis

Staff must be aware of data protection and privacy whenever they handle personal and sensitive data.

### Sensitive personal data

Data protection is about looking after information about individuals. Even something as simple as a person's name or their attendance record is personal data. However, some personal data is more sensitive. This is called **sensitive personal data** in this and the data protection policy. Greater care about how that data is used is required.

Sensitive personal data includes:

- safeguarding and child protection matters
- serious or confidential physical or mental health conditions
- special education needs (SEN) information
- details of serious allegations made against an individual (whether or not the allegation amounts to a criminal offence and whether or not the allegation has been proved)
- financial information about parents/carers and staff
- racial or ethnic origin
- political opinion
- religious beliefs or beliefs of a similar nature

- trade union membership
- genetic information
- sexual life or orientation
- actual or alleged criminal activity
- biometric information (e.g. fingerprints used for cashless catering)

### **Minimising the amount of personal data held**

Restricting the amount of personal data, we hold on an individual is needed to help keep the personal data safe. You should never delete personal data unless you are sure you are allowed to do so. If you would like guidance on when to delete certain types of information, please speak to the School Business Manager or School Business Officer.

### **Basic IT expectations**

**Lock computer screens:** A staff member's computer screen should be locked when it is not in use, even if they are only away from the computer for a short period of time. To lock a computer screen, press the "Windows" key followed by the "L" key.

If staff are not sure how to do this speak to the School Business Officer.

**Be familiar with the tech:** Staff should make sure that they familiarise themselves with any software or hardware that they use. In particular, they need to understand what the software is supposed to be used for and any risks.

For example:

- electronic registers – set to the correct view so students cannot see personal data of classmates
- virtual classrooms – be careful that confidential information is not uploaded for students to access
- shared drives – ensure you know where to store information containing sensitive personal data

**Hardware and software not provided by Cavendish Close Infant School:** Staff must not use, download, or install any software, app, programme, or service without firstly seeking guidance or permission from the School Business Manager, School Business Officer or the LEAD IT Technician. Staff must not connect (whether physically or by using another method such as Wi-Fi or Bluetooth) any device or hardware to IT systems without permission.

**Private cloud storage:** Staff must not use private cloud storage or file sharing accounts to store or share school documents.

**Portable media devices:** The use of portable media devices (such as USB drives) is not allowed unless those devices have been given to staff by the school and staff have received training on how to use those devices securely. The School Business Officer or LEAD IT Technician will protect any portable media device given to you with encryption.

**IT equipment:** If staff are given IT equipment to use (this includes laptops, printers and phones) staff must make sure that this is recorded on the IT equipment asset register. It is the responsibility of the LEAD IT Technician and the School Business Officer to regularly update the school asset register, this is periodically reviewed by the School Business Manager. IT equipment must always be returned to the School Business Officer or LEAD IT Technician even if you think it is broken and will no longer work, and the asset register updated accordingly.

### **Passwords**

Passwords should be long and difficult to guess. Staff should not choose a password which is so complex that it's difficult to remember without writing it down. Passwords should not be disclosed to anyone else.

Staff should not use a password which other people might guess or know, or be able to find out, such as their address or birthday.

Staff must not use a password which is used for another account. For example, staff must not use a password used for their private email address or online services for any school account.

Passwords (and any other security credential staff are issued with such as a key fob or USB drive) must be kept secure and confidential and must not be shared with, or given to, anyone else. Passwords should not be written down.

## Emails

When sending emails staff must take care and check to ensure that the recipients are correct.

Sending an email to multiple recipients, staff must be sure to check that they are using the correct 'To:' 'CC:' or 'BCC:' function.

If the email contains any personal data then staff should ask themselves is this the best communication method. Sometimes it is unavoidable so staff should ensure the email is sufficiently encrypted and ask an authorised staff member to check the email addresses have been entered accurately. When sending personal data over email, staff should consider inputting the information into an attachable document which is password protected.

Staff must not use a private email address for any school related work. A school email address must only be used.

School Governors use their private email addresses, however, sensitive or confidential information is not shared with them via email.

## Paper files

**Keep under lock and key:** Staff must ensure that papers which contain personal data are kept under lock and key in a secure location and that they are never left unattended on desks (unless the room is secure). Any keys must be kept safe.

If the papers contain critical personal data then they must be kept in secure cabinets identified for the specified purpose as set out in the table below. Information held in paperform must not be stored in any other location, for example, child protection information should only be stored in the cabinet in the Designated Safeguarding Lead's (DSL) room.

Cabinet	Location	Access
Child protection	DSL's office	Headteacher and safeguarding team. All information relating to child protection is documented on CPOMs, any physical documents are scanned and uploaded to CPOMs and then shredded. It is not our practice to retain any physical copies of documents.
Financial information	SBM office	Headteacher and authorised personnel e.g. HR Officer
Health information	SLT room	Headteacher and authorised personnel e.g. SLT

**Disposal:** Paper records containing personal data should be disposed of securely shredding the material and disposing the paper waste in recycling. Personal data should never be placed in the general waste.

**Printing:** When printing documents, staff must collect everything from the printer straight away, otherwise there is a risk that confidential information being read or picked up by someone else. If you see anything left by the printer which contains personal data then you must hand it in to the office.

**Put papers away:** Staff should always keep a tidy desk and put papers away when they are no longer needed.

**Post:** Staff also need to be extra careful when sending items in the post. Confidential materials should not be sent using standard post. If staff need to send something in the post that is confidential, consider asking the IT team to put it in on an encrypted memory stick or arrange for it to be sent by courier.

## Working off-site

Staff might need to take personal data off-site for various reasons such as remote working or supervising a school trip. This does not breach data protection law if the appropriate safeguards are in place to protect personal data.

For school trips, the Education Visits Co-ordinator should decide what information needs to be taken and who will be responsible for looking after it. Any personal data taken off-site must be returned back to school.

When a staff member works from home, they should check with School Business Manager or School Business Officer whether any additional arrangements need to be put in place to ensure the security of data.

**Only take the minimum:** When working away from school staff must only take the minimum amount of information with them. For example, if only eight out of a class of twenty pupils are attending the trip, then the teacher should only take the information about the eight pupils.

**Working on the move:** Staff must not work on documents containing personal data whilst travelling if there is a risk of unauthorised disclosure. For example, if working on a laptop on a train, the individual should ensure that no one else can see the laptop screen and they should not leave any device unattended where there is a risk of theft.

**Paper records:** If staff need to take hard copy records with them then they should ensure that they are kept secure.

For example:

- documents should be kept in a locked case
- information should be kept with them at all times
- the individual must keep the documents out of plain sight
- if the individual has a choice between leaving documents in a vehicle and taking them with them (e.g. to a meeting) then they should be taken with them

**Public Wi-Fi:** Staff must not use public Wi-Fi to connect to the internet. If working in a public café, the individual should use their 4G or 5G.

### **Using personal devices to access school work**

Staff may only use their personal device (such as your laptop or smartphone) for school work if you have firstly discussed this with the Headteacher and been given permission to do so.

Even if they have been given permission to do so, then before using their own device they must speak to the LEAD IT technician so that they can configure the device.

Appropriate security measures should always be taken. This includes the use of firewalls and anti-virus software. Any software or operating system on the device should be kept up to date.

**Default passwords:** If a personal device for school work came with a default password then this password should be changed immediately.

**Sending or saving documents to your personal devices:** Documents containing personal data (including photographs and videos) should not be sent to or saved to personal device. This is because anything you save to your computer, tablet or mobile phone will not be protected by security systems. Furthermore, it is often very difficult to delete something which has been saved to a computer.

**Friends and family:** Staff must take steps to ensure that others who use their device) cannot access anything school related information. Staff must make sure that the device is not configured in a way that would allow someone else access to school related documents and information – if they are unsure about this then they need to contact the IT department who can assist with this.

**When you stop using your device for school work:** If the individual stops using your device for school work, all documents including emails and software applications provided by the school must be removed from the device.

### **Breach of this policy**

Any breach of this policy will be taken seriously and may result in disciplinary action.

A member of staff who deliberately or recklessly obtains or discloses personal data held by Cavendish Close Infant and Nursery School without proper authority is also guilty of a criminal offence and gross misconduct. This could result in summary dismissal.

This policy does not form part of any employee's contract of employment.

We reserve the right to change this policy at any time. Where appropriate, we will notify staff of those changes by email.

## **Appendix 1 - Protocols for the use of phone in school**

### **Responsibility**

Mobile phones brought into school are entirely at the staff member, parent's or visitors own risk. The school accepts no responsibility for the loss, theft or damage of any mobile phone.

The school reserves the right to search the content of any mobile phone on the school premises where there is reasonable suspicion that it may contain undesirable material, including those which promote pornography, violence or bullying. Staff mobiles may be searched at any time as part of routine monitoring.

The recording, taking and sharing of images, video and audio on any mobile phone is prohibited; except where it has been explicitly agreed otherwise by the headteacher.

All mobile phone use is to be open to scrutiny and the headteacher is to be able to withdraw or restrict authorisation for use at anytime if it is to be deemed necessary.

Mobile phones are not permitted to be used in certain areas within the school premises.

Mobile phones are not to be accessed where there are children present or in the same area.

### **Staff**

All mobile phones belonging to classroom based staff must be secured in the high, locked cabinets provided in classrooms. Mobile phones can not be stored in classroom drawers or in pockets for example. They must be 'out of sight' and not accessible to children at all times.

All mobile phones belonging to non-classroom based staff must be stored appropriately in offices.

All mobile phones belonging to Catering Staff must be stored in lockers.

All mobile phones belonging to Cleaning Staff must be stored in cleaning cupboards.

Staff members may use their phones during school break times in certain areas where children are not present.

Mobile phones will not be used in any way during lessons or formal school time, this includes during breakfast / after school club and curriculum clubs. They should be switched off or silent at all times.

### **Staff use of mobile phones**

Staff are not permitted to use their own mobile phones for contacting pupils, parents/carers or their families within or outside of the setting in a professional capacity.

Staff will be issued with a school phone where contact with pupils, parents or carers is required.

Staff have permission from the Headteacher, whilst on educational off-site visits to bring their own mobile phones on trips to be used strictly for communication with the school or for emergency situations.

Bluetooth communication should be 'hidden' or switched off. They will not be used during teaching periods unless permission has been granted by a member of the senior leadership team in emergency circumstances.

Staff must not use their personal mobile phone to take photos or videos of pupils and will only use work-provided equipment for this purpose.

Staff must not show children their phones, for example a photo or video.

If a member of staff breaches the school policy then disciplinary action may be taken.

Where staff members are required to use a mobile phone for school duties, for instance in case of emergency during off-site activities, then a school mobile phone will be provided and used. In an emergency where a staff member doesn't have access to a school owned device, they should use their own device and hide their own mobile number for confidentiality purposes.

Where members of the Site Management Team require the use of mobile phones on site, for example, to evidence defects or to support lone working, this is with specific prior agreement from the Headteacher.

## **Visitors**

Exactly the same safety expectations are required for all visitors. Expectations must be communicated and managed by the member of staff who has arranged for the visitor to attend school.

All visitors are requested to keep their phones on silent and out of sight.

## **Parents and pupils**

Where parents or pupils need to contact each other during the school day, they should do so through the school's telephone.

## **Pupils' use of personal devices**

The school does not allow pupil mobile phones to be brought into school.

If a pupil brings a mobile phone to school then the phone will be confiscated and will be held securely in the school office. Mobile phones will be released to parents or carers in accordance with the school policy.

## **Digital images and videos**

In Cavendish Close Infant and Nursery School:

- consent is sought from parents/carers for use of images and videos involving their child as part of enrolment when their son/daughter joins the school
- pupils are not identified in online photographic materials or include the full names of the pupil
- staff confirm that they have read and understood this policy
- any photos used on the school website or prospectus, parents/carers will be asked to provide consent
- pupils are taught about how images can be manipulated in their e-safety education programme
- pupils are advised to be very careful about placing any personal photos on any 'social' online network space
- pupils are taught that they should not post images or videos of others without their permission
